Cattle Operations:

What is your main goal with your cattle?

Breeding plan/genetics and what type of cattle?

What type of cattle handling facilities do you have - scales, chutes?

Do you have a vaccination program?

Are you comfortable doing vaccinations, castrations, palpations, AI?

Do you have a nutrition and mineral program?

Do you plan to incorporate any other species?

Do you need help with cattle evaluation?

Do you need help with purchasing and marketing of livestock?

Do you have grazing strategies and practices? Do you have cell, mob, strip or rotational grazing?

Forage Operations:

What is your main goal for your forage operation?

What type of forage do you grow?

Do you plant winter annuals and cover crops?

Do you put up your own hay or do you purchase from others?

Do you practice conventional farming and/or regenerative farming?
